

SACHINI DILRANGI

Associate Software Engineer

Panagoda, Sri Lanka | +94 71 709 7299 | sdilrangi58@gmail.com
[linkedin.com/in/sachini-dilrangi-434128242](https://www.linkedin.com/in/sachini-dilrangi-434128242) | github.com/SachiniDIL

PROFESSIONAL SUMMARY

Software Engineer with 1+ year of experience developing and maintaining web applications, REST APIs, and microservices architectures. Proficient in JavaScript/TypeScript, React, Next.js, and Spring Boot, with hands-on experience in PostgreSQL, MongoDB, Git-based version control, and CI/CD. Experienced integrating LLMs into production-style workflows, including prompt engineering and NLP-based algorithms. Final-year Software Engineering undergraduate with a track record of shipping tested, production-quality code.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL

Frontend: React.js, Next.js 15, Tailwind CSS, TanStack Query, HTML5, CSS3

Backend: Node.js, Spring Boot, Microservices Architecture, RESTful API design, WebSockets, JWT Auth, FastAPI (in progress)

Databases: PostgreSQL, MongoDB (Atlas), MySQL, Redis, Firebase

AI/ML Integration: LLM API integration, prompt engineering, NLP similarity algorithms (TF-IDF, Jaccard, N-gram)

Cloud & DevOps: AWS S3, Docker, GitHub Actions (CI/CD), Vercel

Testing & Tools: Jest, React Testing Library, Git, GitHub, Jira, Figma

Currently expanding: Go, Google Cloud Platform, and agentic AI tooling (Google ADK, n8n, Gemini Pro)

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Cloud-eDesign

Aug 2025 – Apr 2026

- Contributed to multiple Next.js and Spring Boot web applications, building features, REST APIs, and database-backed integrations across the stack.
- Built RESTful APIs backed by relational and NoSQL databases; participated in code reviews and wrote unit/integration tests to maintain code quality.
- Used Git and CI/CD workflows within an Agile, remote-first team to ship clean, well-documented, production-ready code.

Software Engineer Intern | Cloud-eDesign

Feb 2025 – Aug 2025

- Assisted in developing and testing web application features under senior engineers, gaining hands-on experience with the team's front-end and back-end stack.
- Contributed to bug fixes and troubleshooting, and learned Agile practices, Git workflows, and code review standards.

PROJECTS

Smart LMS — Versioned Submission & AI Feedback System | Final-Year Research Project (SLIIT) — Spring Boot, PostgreSQL, Redis, Next.js, TypeScript, LLM/NLP
Aug 2025 – Present

- Sole developer of the AI-enhanced submission, feedback, and version-control module within a 3-person capstone microservices system, alongside teammates' project-management and analytics modules.
- Built an ensemble plagiarism-detection engine (TF-IDF, Jaccard, N-gram Dice) achieving a 91% true-positive rate at 8% false positives, with real-time WebSocket risk alerts.
- Integrated an LLM for real-time essay feedback (avg. under 5s latency) and built a consistency-enforcement engine that cut feedback contradictions from 23% to 6%; AI-assisted grading cut instructor grading time by 35%.

charts.lk — Data Visualization Platform | Client project at Cloud-eDesign — Next.js, MySQL, PayHere Payment Gateway

- Built and help maintain charts.lk, a Next.js data-visualization platform for Sri Lanka backed by MySQL, including subscription billing via PayHere payment gateway integration.

Villa Management System | Web Application — Spring Boot, MySQL, JSP, HTML, CSS, JavaScript
Mar 2024 – Jun 2024

- Built a full-stack web app for villa operations (bookings, service requests, staff coordination) using Spring Boot and MySQL for backend logic and data handling.

EDUCATION

BSc (Hons) in Information Technology, Specialising in Software Engineering | Sri Lanka Institute of Information Technology (SLIIT)
Oct 2022 – Expected 2026

CGPA: 3.45 / 4.0 (as of Year 2, Semester 2) • Languages: English (Intermediate), Sinhala (Native)
